Cyclone at the Race Track.

Buffalo, N. Y., June 11.—A terrific wind and rain storm swept over the country between Hamilton and Niagara Falls, Ontario, late Friday afternoon. All direct communication between this city and Hamilton and Toronto was cut off for several hours. It was reported that the wind storm reached the proportions of a cyclone around the race track at Hamilton. The horses were parading past the stand for the second race when the storm came up.

They were sent back to the paddock and everybody sought shelter.

The skies were overcast with heavy clouds and the wind tore over the course at the rate of 75 to 81 miles an hour.

Many of the crowd ran to the infield where they laid flat on the ground to avoid being struck by flying debris. The rain fell in torrents. It was all over in 20 minutes and racing was resumed. So far as known no lives were lost.

RESORTS TO THE LAW.

Institutes Habeas Corpus Proceedings to Obtain Wife.

Moultrie, Ga., June 11—Jess Holland whose marriage to Miss Ida Peterman occurred Saturday night, after an elopement, and whose bride was forcibly taken from him by her relatives on the following day, has instituted habeas corpus proceedings for the recovery of his wife. The officers have not yet served the papers. Both sides have employed counsel, but it is feared that the matter will not be allowed to be settled in the courts.

This affair has, it is reported, greatly stirred a large number of people in the community, who are relatives on one side or the other. A serious clash was narrowly averted in Moultrie a day or two ago between relatives of the bride and members of the groom's family and it has been openly stated, it is alleged, that they will prevent the carrying out of the marriage vows at any loss of life or financial cost.

Hands and Feet Roped.

Columbia, S. C., June 11—With hands tied behind and feet roped together Mose Hilgans, a negro 50 years old, was found in Tiger river, in a remote section of Union County. It is believed that the negro was murdered on suspicion of being implicated in an incendiary fire in which valuable property in that section was destroyed in April last, at which time a lynching was narrowly averted. A son of the dead man, along with two other negroes is now in jail, charged with the burning. According to the story of a negro woman, thought to be the wife of the dead man, two white men were seen Sunday afternoon with the negro in charge going to the river. He is said to have had a bullet wound in the throat. Another story is that the negro was killed Friday morning and thrown into the river.

WHYTE IS GIVEN GORMAN'S PLACE

Political Foe of Dead Senator Succeeds Him.

APPOINTMENT CAUSED COMMENT

Whyte Will Enter the United States Senate for the Third Time—He Has Also Been Governor of the State of Maryland.

Baltimore, Md., June 11.—Ex-Governor William Pinkney Whyte has been appointed to fill the unexpired term of the late United States Senator Arthur P. Gorman, whose death left a vacancy in the federal [illegible].

The appointment of ex-Governor Whyte by present Governor Warfield has caused much comment as most of the impression which is general that Whyte was the bitterest enemy of Senator Gorman.

Ex-Governor and ex-Senator Whyte will enter the United States for the third time, and for the second time by appointment to fill an unexpired term, he having been named by Governor Swann to fill out the term of the late Reverdy Johnson upon the appointment of the later as United States minister to England in 1868.

William Pinckney Whyte was born in Baltimore August 9, 1824. He began the study of law with a prominent law firm, later entering Harvard law school and he was admitted to the bar of Baltimore in 1846. In May, 1847, he was elected to the house of delegates of the Maryland legislature, this being his first public office. He refused renomination for the legislature in 1849, was defeated for congress in 1851, was elected comptroller of the treasury of the state of Maryland in 1853, was again defeated for congress in 1857, was a member of the Democratic national convention in 1868 and was in that year appointed by Governor Swann United States senator to fill out the term of the late Reverdy Johnson, appointed minister to England. In 1871 he was elected governor of Maryland and in 1874 United States senator.

He declined reelection as senator in 1880, and in the following year was elected mayor of Baltimore. In 1885 he became attorney general of Maryland, and in 1889 was appointed by President Harrison a delegate to the congress of American nations, which he declined. In 1898 he was made chairman of the commission that prepared the new charter of the city of Baltimore and in 1900 he became city solicitor, that being his most recent office. It is related that his first meeting with the late Senator Gorman, whom he is to succeed, occurred in 1871, when the late senator called at his office to tender Mr. Whyte his support in the contest for the governorship of the state then in progress.

Gorky Is In Chicago.

Chicago, June 11.—Amid scenes of wild enthusiasm a Jewish audience of 2,200 persons, many of them women and girls, showered gold and silver coins and paper money on the platform of the West Side auditorium, on Center Avenue and Taylor street, in response to an appeal of the Russian refugee Gregory Gorky, for funds in aid of the Russian revolutions. For more than 20 minutes the showers of money descended and rolled at the feet of the visiting Russian. It took a force of 20 collectors to gather up the coins. The count of the money was not completed until after midnight and it was said to foot up a handsome amount, augmenting considerably the fund of $4,000 that Mr. Maxim has collected during the two months of his speech-making tour in this country.

Made Inquiries of Root.

Washington, June 11.—Mr. Hermes, the Uruguayan charge, called on Secretary Root and inquired whether Luis Melan Lafinur, whose name is under consideration for appointment as Uruguayan minister to this country, will be acceptable to the United States. Mr. Lafinur is one of the most prominent lawyers in Montevideo and an author of note.

FALLING STAND HURTS SEVERAL.

Accident Occurrs at People's League Meeting in Savannah.

Savannah, Ga., June 11—The speaker's stand in the park extension fell to the ground Friday night while the meeting of the People's Democratic League was in progress. David Christian was seriously crushed and several others received painful hurts.

The stand was crowed, many prominently identified with the faction having been invited to occupy places upon it.

The fall of the stand created great excitement and much apprehension until it was ascertained that the consequences were not nearly so serious as had been feared.

The stand was repaired and the meeting continued, the various candidates to be voted upon in the primary being ratified.

The Citizen's Club held its rally in the theater and ratified its ticket.

Cincinnatians Without Water.

Cincinnati, June 11.—While suffering from the most intense heat of the season, the people of Cincinnati were on Saturday also suffering from a water famine, the supply at the hill tops having failed, and being still short. No explanation of the failure of the water has been given, but Mayor Dempsey met with the water officials and demanded that they employ competent help at once to remedy whatever trouble may be found to exist. Many sections of the city were entirely without a water supply and consequently the danger from possible fires caused general alarm.

'Frisco Mint in Operation.

San Francisco, June 11. The big machines of the local mint were put in operation Friday and for the first time since the fire the work of making money will be resumed. The mint will not open for a regular session, but just for a few days, long enough for the coinage of silver that is now in the building. As soon as this work is accomplished, the mint will be closed so that the officials may get a reading for the annual count. The regular session of the mint will, it is expected, open July 1.

Boston, June 11.—Guilty on one of the counts of conspiracy and 73 counts of larceny, was the jury's verdict in the case of Ferdinand E. Borges, whose trial has been in progress for the past three weeks in the superior court. Borges had been indicted in company with former Congressman William D. Owen, of Indiana, on 126 counts of larceny and two of conspiracy in connection with the promotion of the Chero Plantation company of Boston, and Mexico. Owen has not been arrested.

C. Leghlin, Philadelphia. The next meeting place was left to the executive committee.

"I STAND PAT," SAYS ELLERBEE

South Carolina Congressman Talks About Cotton Report.

JORDAN ISSUES STATEMENT.

Ellerbee Says Charges Were Not Inspired by Harvie Jordan, and That They Were Made Because He Can Sustain Them.

Washington, June 11.—Representative Ellerbee says that he proposes to stand pat on the resolution introduced by him charging the manipulation of the cotton acreage. An attempt has been made to discredit him by the statement that the idea was inspired by Mr. Harvie Jordan in an effort to bulldoze the department of agriculture.

"As a matter of fact," continued Mr. Ellerbee, "Mr. Jordan was not consulted one way or the other before the introduction of my resolution. He was not in the city and knew nothing whatever concerning my intentions in the matter. What I said at the time I introduced my resolution I adhere to, and I have not been to the white house in regard to the matter and I have no intention of discussing the subject with President Roosevelt. My views were clearly set forth at the time I introduced the resolution in the house, and any assertion made I am prepared to substantiate at the proper time and place. But I do not think it incumbent upon me to call at the white house with anybody, for the reason that it has not been indicated to me that such a course will be necessary.

"My sources of information were sufficiently satisfactory, in my judgment, to justify me in taking the course that I did and my aim was accomplished when I brought the matter to the attention of congress and guaranteed my ability to substantiate every statement contained in my preamble and resolution."

Statement by Harvie Jordan.

Washington, June 11.—President Harvie Jordan, of the Southern Cotton association, has made the following statement:

"In view of the present misinterpretation of my position on prices of spot cotton which has been given general circulation in the press during the past few days, that I have advised farmers or others to sell spot cotton for future delivery or to deal in cotton futures at all. My position in favor of higher prices is unchanged, and will continue so long as present splendid trade conditions last, and no probability of abnormally large crops being produced."

Continue Investigation.

Newcastle-on-Tyne, June 11.—Members of the municipal ownership committee of the National Civic Federation of the United States Friday continued their investigations of municipal and private enterprises and especially means of providing electricity. They visited various works in this city and on the Tyne, receiving much valuable information. They will go to Manchester tomorrow. The commission is strictly adhering to the resolutions adopted at the beginning of the trip not to express any opinions formed from observations in the various cities of Great Britain. Necessarily, there will be a great diversity of opinion on details, and the commissioners are not willing to express themselves until they have fully digested all the information obtainable in this country. They speak enthusiastically of the royal treatment they are receiving on all hands.

Washington, June 11.—The president Saturday sent to the senate the following nomination of George Dorsie to be United States attorney for the western district of Kentucky.

TRUE TO PROMISE STROBHAR RETURNED

Wired Sheriff Fennell That He Would Report at His Office.

"LOOK FOR ME JUNE 11"

Was the Message That Flashed Over Wires to the Alachua County Sheriff, and on That Date He Was Here. Bond Promptly Furnished.

Captain J. N Strobhar, erstwhile agent of the Atlantic Coast Line who was indicted by a grand jury at a recent special term of the circuit court upon a charge of embezzlement, arrived in the city Sunday from New York.

The story of Captain Strobhar's troubles with the Atlantic Coast Line has been so often told through the papers and otherwise that it is familiar to everyone, hence it is unnecessary to repeat same. It may be said, however, that the grand jury at the regular term of the court failed to find indictment upon the charge, which resulted in the calling of this special term a few days afterward by Judge Wills of the Eighth Circuit. The special grand jury returned indictment after Captain Strobhar had left the city. His first intimation was found in the information published in The Sun, he at that time being in New York. He immediately wired Sheriff Fennell of Alachua county that, after an important business trip to Montreal, Canada, he would return voluntarily, and would report at the sheriff's office on Monday, the 11th inst.

True to his promise, Captain Strobhar arrived on time, and made report to the officers. Bond was immediately secured, and the defendant was released, pending the regular fall session of the circuit court.

Captain Strobhar is enjoying the best of health, apparently, and his numerous friends here were glad to greet him again.

THAT CIRCULAR.

W. S. Broome Replies to One Issued by W. E. Baker.

To the Voters of the Eighth Judicial Circuit:

At 9 o'clock this, Monday morning, the 11th day of June, 1906, just twenty-three hours before the polls open, my attention has been called to a campaign circular signed by W. E. Baker, Esq., of this city. Mr. Baker alleges that I am the campaign manager for Mr. Rivers, and then proceeds to rehearse facts alleged to be within the knowledge of myself and others. I simply desire to say that no proposition has been made by Mr. Fielding, through Mr. Baker, so far as I know, except such as would be impossible to accept. I distinctly told Mr. Baker that I could not speak for Mr. Rivers, but that I was satisfied that Mr. Rivers would agree to any fair and equitable settlement of the candidacy of himself and Mr. Fielding. I told him that there was a principle involved in the candidacy of Joe Rivers that could not be ignored, and that if these two gentlemen are to decide their case before a board of arbitration, then that the cases of the two gentlemen should be submitted to the board for consideration; that Mr. Rivers lead Mr. Fielding by one hundred votes on the face of the returns as canvassed by the State Committee, and that he still lead Mr. Fielding should the vote of Baker county be counted, as we gather the vote of that county from the most trustworthy sources. Mr. Baker then stated that if the cases of the two gentlemen were to be submitted to a board of arbitration, then it would be necessary to have the vote of Baker county, and yet Mr. Baker declared that the vote of Baker county could not be obtained. Now, if you will figure out how a board shall decide a question, impossible of decision without the vote of a named county, and the vote of that county impossible to get, then you have accomplished that which no other man could accomplish.

I am frank to admit that Mr Rivers is my choice for State Attorney, I am not his "campaign manager," but I am his personal and political friend in this race. He has conducted his campaign, so far as I am advised, in a manner that has given his opponents ample opportunity to refute any charge or statement he has made. I am unable to learn, from the best sources of information, that either Joe Rivers or his friends, have, at the eleventh hour, attacked by new chargee either of the candidates against him. It is a great surprise to me that Mr. Baker should circulate a campaign dodger, dated the 9th inst., which was unknown to Mr. Rivers until this morning, rehearsing alleged facts, all of which were absolutely known to him on the first day of June, and which dodger could be absolutely and conclusively answered and explained away, to the satisfaction of every reasonable man, but for the want of time which prevents it.

The truth should be told early in order that it may live, and grow, and breathe with every fleeting hour. Truth is the "eternal law of order," it glitters in the rainbow and lives in the fragrance of the flowers; it is written on the Arch of Heaven, and sparkles in every gem that drips from the brow of night. I trust that tomorrow morning will find no new "campaign dodger" in circulation.

Respectfully,
W. S. BROOME.

CATARRH FROM CHILDHOOD

Cured by Hyomei, the Only Medicine For Catarrh That J. W. McCollum & Co. Are Willing to Guarantee.

The popularity and growth of Hyomei are unique in the annals of medicine. The demand for the Hyomei outfit and the extra bottles in Gainesville has been something phenomenal, and J. W. McCollum & Co. say that they have never sold any other remedy which gave such universal satisfaction and made so many remarkable cures.

The worst and most chronic cases of catarrh readily yield to the use of Hyomei. People who have suffered from childhood have been cured by this remedy. J. S. Nugent, treasurer of the American Union Insurance Co., New York City, writes: "Hyomei has completely cured my daughter of catarrh, from which she has been suffering for years."

So many remarkable results have attended the use of Hyomei amongst the customers of J. W. McCollum & Co. that they feel justified in using the strongest possible language in speaking of its virtues, and when you read that they sell it under an absolute guarantee to refund the money if it does not cure, you will see that they fully believe in its curative powers. A complete outfit costs only one dollar extra bottles 50 cents.

RHEUMATISM

TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers: the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism; it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.

COUNTRY CLUB IS MAKING PROGRESS

Committees Are Actively at Work Looking to Success of Club.

A HARD ROAD TO LAKE

This Will Afford the People of Alachua County Six Additional Miles—The Earnest and Successful Work of Young Lady.

Excellent headway is being made in the organization of the Country Club, and the perfection of arrangements looking to the early beginning of the elegant building which will be constructed on the shore of Newnan's lake, the establishing of golf links, tennis courts, polo grounds, etc.

At the last meeting of the club it was decided to proceed at once with this work, and active committees were appointed to prosecute the same. Among these committees was a committee appointed to build a hard road from Gainesville to the grounds of the club, with instructions to proceed at the earliest moment. Preparations are being made, with the result that within a short time the city and the lake will be connected by an elegant road, a distance of six miles.

The Country Club is composed of a number of the best people of the city, the majority of whom are people of ample means. It is reported that $2,500 has already been subscribed for the erection of the building and arrangement of grounds, while nearly $2,000 has been raised on the road fund. The club proposes to make the county commissioners a proposition at the next meeting of that board.

To Miss Alice Nichols is due a large portion of credit, not only in the organization, but also in securing subscriptions, and to the efforts of this young lady the people of Gainesville and Alachua county will be due these substantial improvements, including the road. Miss Nichols has been very earnest and persistent in her work, and is to be commended.

How to Break Up a Cold.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse water discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effects of the cold and restores the system to a healthy condition within a day or two. Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and according is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and the only striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennet Medical College, Chicago; Prof. Hale, of the same city; Prof. John M. Scudder, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholow, of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, prolapsus, anteversion and retroversion and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of woman's peculiar ailments, who frankly and confidingly takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is *free*. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing *only*; in cloth binding 31 stamps.

Dr. Pierce's Pellets cure constipation.

Card From Jos. J. M. Rivers.

The circular letter signed W. E. Baker which was mailed to every elector just a few hours before the election, which circular attacks my honor at an hour too late for a reply, I denounce as false from beginning to end and the man who wrote it together with the one who instigated it as an assassin of character too base to deserve the notice of honest men and unworthy of the credence of decent people. The signer of the circular has been in this county only about two years and has never stood an examination for admission to the Bar, yet assumes to control the morals and politics of Alachua county, and he knows full well that if I am State Attorney no such man as he is will be allowed to control that office, hence his clear wearing desire to land his chum Mr. Fielding in the office. I confidently ask and expect that the voters will not allow such slanders to affect them and that they will again give me an overwhelming majority.

Respectfully,
Jos. M. Rivers.

Card of Appreciation.

We desire through the columns of The Sun to express our appreciation of the kindness and sympathy shown us by the good people of Alachua during the severe trial through which we have just passed in the sickness and death of our only child. Friendship, kindness and sympathy in a time like this help us to bear our troubles.

Mr. and Mrs. A. M. Ferris.

Alachua, June 11, 1906.

Six Deaths from Heat.

Chicago, June 8.—Wednesday experienced the warmest day of the year thus far in Chicago, the temperature registering a trifle above 90 degrees at 5 o'clock p. m. at the United States weather bureau. Twelve prostrations were reported, six of which resulted fatally. Normal temperature for this time of the year is 68 degrees.

Come to Deadlock.

Columbus, O., June 8.—The miners and operators of this state have practically come to a deadlock in their attempts to come to some agreement regarding the figure as to wages. The committees met today, but the negotiations will probably be declared off. This announcement comes from authority.

Unknown Friends

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by all druggists.

With all this Republican talk of trust-busting can you point to one trust that has lowered the price of its products?

The stink created by the beef combine scandal indicates without any other evidence that there is a rotten state of affairs

The Republicans of Missouri in their State convention endorsed the national administration with an especial eye for government offices and pap.

A movement has been started in Philadelphia to raise a fund of $100,000 with which to carry on a campaign for just automobile laws, a fair field and no favor.

You need not turn vegetarian because you are afraid to eat the products of the Beef Trust, for there is plenty of good wholesome home-killed meat to be bought of the local butchers, which is not embalmed.

The Democrats can "point with pride" to the fact that the Republicans have been forced by public opinion to vote for railroad rate legislation and other issues adopted exclusively in the Democratic national platforms.

It should be noted by Democrats that in all the exposure of corrupt practices and dishonest politics, which has so discredited the Republican party and politicians, that the Democratic party comes through with a clean bill of health.

If the rate of births which have been reported in this city for the past few days continues, Gainesville need have no fear of decrease in population. Gainesville is a good place to be born in, and The Sun has never heard a regret on this account

The Republicans "cut their melon" when they forced through the House of Representatives the largest Sundry Civil bill ever passed. Of course, the districts represented by Republicans got the lion's share of the appropriations for rivers and harbors.

The recent heavy rains, the growers say, will considerably delay and decrease the cantaloupe yield. About the only consolation to this misfortune is the fact that probably the shortage in yield will have a tendency to elevate the price of this delicious fruit.

Who ever dared to haul down the American flag raised upon territory once ours? Why, according to Senator Morgan, who should be good authority, Gen. Wood hauled down the flag on the Isle of Pines without authority and the administration is trying to keep it down.

The Postmaster-General has submitted to the postoffice committee of the Senate and House a bill for the issuing of postal notes of denominations from one to nine cents inclusive, without fee, and of postal notes of the denominations of 10, 20, 25, 30, 40, 50, 60, 70, 80 and 90c, $1, $1.50, $2 and $2.50. A fee of one cent will be charged for notes ranging from 10 to 40 cents, and of two cents for notes from 50 to $2.50. A receipt form, to be retained by the purchaser, will be attached to the notes of larger denominations

TODAY'S PRIMARY.

With the setting of the sun today, there will have ended the agony of a second primary, necessitated as a matter of course by reason of the fact that a few candidates did not secure the required majority on May 15.

The Sun does not suggest, of course, the old adage of voting early and often, but it does suggest that it is the duty of every qualified voter to go to the polls and cast his ballot for the candidate of his choice. It is a right of suffrage which every American should feel his duty to express, and it is hoped will do so, so that it will be seen the American people believe in declaring the right their citizenship gives them in free and unincumbered expression.

Go to the polls, cast your ballot, and thus exemplify your loyalty for the friend of your choice.

THAT SHIP CANAL.

Hon. Frank Clark, Congressman from the Second District of Florida, is never tiring when it comes to the interests of not only his district, but the State at large. Mr. Clark has introduced a bill to provide for a survey for a ship canal across the State from the Atlantic Ocean to the Gulf of Mexico, and making appropriation therefor. This bill was referred to the committee on railroads and canals, which now has the same under consideration.

The question of a canal across the State, such as is provided in Mr. Clark's bill, has been agitated for several years, but this is the first definite step ever taken to secure the same. Such a canal would prove of incalculable value to the commerce not only of Florida, but of great benefit to every port in the United States, shortening the distance between Gulf and Atlantic ports several hundred miles.

This measure will be watched with a great deal of interest by the shipping industry of the country, who will hope for its success and the ultimate accomplishment of its purpose.

While the government is busy with corporation scandals, it would not be amiss for it to take a look at the Patent Office. This is a bureau of the government that not only pays its own way but returns a handsome revenue to the Treasury as well. It has been less than a year since the examining force of the office was increased by Congress. But the big office is confessedly eight months behind with much of its examining work, which means a delay of a year or even two years in the final issue of a patent. The explanation is that the office is run at the loosest way and the Commissioner of Patents either cannot or will not make his force work As a result one of the most important departments of the government is held up and inventors all over the country are unable to get their business transacted before the department, though they have paid for it liberally in advance.

While the proposed extension of the Gainesville and Gulf Railroad south from Fairfield to Tampa has assumed for a time more the nature of a dream than a reality, it is now more an assured fact than ever. It is rumored that ample capital has been arranged for, and that this extension will certainly be built at no distant day. The proposed extension will traverse one of the most fertile and most diversified sections of Florida, and will open to the world a section which has heretofore been secluded and in many places uninhabited, owing to the lack of railroad facilities. Some of the finest timber and agricultural lands in the South will be reached, which will naturally mean a great influx to those sections, and a wave of prosperity which has never been there before

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of small and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co. Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surface of the system. The Wall Street financiers are determined to promote prosperity at any cost, so they issued during the month of May new stocks and bonds to the value of $127,000,000, and it was a poor month for such business at that. How much of the amount was water and how much legitimate was not stated in the official report, but it is, of course, expected to unload these millions on the public at the rate of $1,524,000,000 a year. No wonder the Wall Street combines can afford to finance the Republican campaign fund.

Des Moines, Iowa, boasts a baby that changes color three times a day. It is the child of Hindoo parentage, said to be the first one to make that claim ever born in America. When the little fellow awakens at sunrise he is a pretty pink, fair complexioned boy. At noon he changes color and within an hour is of the dark ginger color of his princely ancestors. At night he becomes an alabaster white. The mixture of bloods is said to be accountable for the strange phenomenon.

The Tobacco Trust does not seem to fear our Republican trust busters, for it has enlarged its field of activity by absorbing its rival in the West Indies. For years the attorney-generals of the United States have had on file in the Department of Justice the evidence of the law-breaking of this combine, but have refused to act upon the evidence presented.

What is the matter with these machine Republican politicians, they are wilting like gathered wild flowers and dropping out of the game like the fellow with the small stack of chips. Walt Brownlow of Tennessee is the latest to be sacrificed on the altar.

Within the last thirty days the bank at Plant City has paid to the truckers of that section $180,000.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, catarrh of the bladder and kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney or bladder trouble it will be found just the remedy you need. It has been used in so many ways, in hospital practice, in private practice, and has been so successful in every case that a special arrangement has been made by the readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling all about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. TORTURED BY ITCHING SCALP

Eczema Broke Out Also on Hands and Limbs—Suffering Intense—Doctors Said Too Old to Be Cured—An Old Soldier of 80 Years Declares:

"CUTICURA TREATMENT IS A BLESSING"

"At all times and to all people I am willing to testify to the merits of Cuticura. It saved me from worse than the tortures of hades, about the year 1900, with itching on my scalp and temples, and afterwards it commenced to break out on my hands. Then it broke out on my limbs. I was advised to use salt and water, which I did, to no effect. I then went to a Surgeon, who commenced treating me with a wash of borax. This treatment did me no good, but rather aggravated the disease. I then told him I would go and see a physician in Erie. The reply was that I could go anywhere, but a case of eczema like mine could not be cured; that I was too old (80). I went to an eminent doctor in the city of Erie and treated with him for six months, with like results. I had read of the Cuticura Remedies often. I was strongly tempted to give them a trial, so I sent for the Cuticura Soap, Ointment, and Resolvent and continued taking the Resolvent until I had taken six bottles, stopping it to take the Pills. I was now getting better. I took two baths a day, and at night I let the lather of the Soap dry on. I used the Ointment with great effect after washing in warm water, to stop the itching at once. I am now cured.

"The Cuticura treatment is a blessing and should be used by every one who has itching of the skin. I can't say any more, and thank God that He has given the world such a curative. You can use this letter as you please. A very much befriended man, Wm. H. Gray, 3303 Mt. Vernon St., Philadelphia, Pa., August 2, 1905."

Complete External and Internal Treatment for every Humor, from Pimples to Scrofula, from Infancy to Age, consisting of Cuticura Soap, Ointment, and Resolvent (or Pills), may be had of druggists. Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.) (or Chocolate Coated Pills, 50c. per vial), may be had of druggists. Cuticura Soap and Ointment are sold throughout the world. Bookmaker Fined $500.

Kansas City, June 11.—In the criminal court here, Charles Oldham, a bookmaker, was convicted of violating the law passed by the last Missouri legislature prohibiting the registering or recording of bets on a horse race and was fined $500. He immediately took an appeal. Dr. J. S. Gardner, president of the Elm Ridge Jockey club, of Kansas City, at whose track the races were run in order to test the law, and who was indicted jointly with Oldham, was found not guilty. The judge instructed the jury to discharge Gardner on the ground that the law does not prohibit horse racing nor betting on horses, but simply prohibits the registering or recording of bets.

A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. J. W. McCollum & Co.

THOMPSON DIES OF WOUND.

Special Officer Reese, Who Shot Him, Under Arrest.

Atlanta, June 11.—Sam Thompson, aged 23 years, died Friday at the hospital as a result of a bullet wound in the left side received Wednesday night.

The shot that killed Thompson was fired by J. T. Reese, a special police officer at the Fulton Bag and Cotton mills, called at 56 Wyman street to arrest Thompson, who had been terrorizing the neighborhood with threats and curses, and was at the time lying in the steps of the house in an intoxicated condition.

The officer proceeded to arrest Thompson, who pulled what was supposed to have been a billy from his hip pocket and hit the officer a hard blow on the head. The officer produced his pistol and the two had a hard fight for the possession of it.

Thompson, who was much the larger of the two men, began to get the best of the fray, and produced a large knife. The officer then fired.

Coroner Thompson investigated the circumstances and stated that it was out of his jurisdiction to handle the case Thursday night Chief Jennings ordered Officers Hulsey and Hood to investigate the circumstances of the case, and they rendered a report that Officer Reese was justifiable in shooting Thompson in self-defense.

Officer Reese has been arrested and will have to stand trial before Justice Cook. It is generally thought he will be acquitted.

It is 18 feet high, weighs seven and a half tons and will be mounted on a granite pedestal 18 feet high. The statue represents him in continental uniform as he appeared at Valley Forge.

Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended, but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co

BENJAMIN P. CALHOUN.

I conceive the faithful and energetic discharge of the duties of the office to be a sacred obligation to the state, and if the voters of the circuit favor me with the nomination, I pledge them that the interests of the State and of society shall not suffer through favor or negligence of mine.
